

Versana Balance™

Care with Confidence

INTRODUCING Versana Balance

Versana Balance ultrasound helps you provide reliable general practice care with no compromise on quality. This practical, competent system delivers comprehensive scanning for diagnosis and monitoring in private clinics, GP offices, and other primary-care settings.

Designed for GP clinicians who have used ultrasound and wish to upgrade their capability, the affordable Versana Balance combines design, workflow and features developed based on extensive research and testing to meet users' demanding requirements. It comes backed by the GE Healthcare legacy of ultrasound excellence. A wide variety of probes and clinical tools let you provide quick and comfortable exams and confidently diagnose a broad range of conditions.

COMPETENT. EFFICIENT. PRACTICAL.

A partner you can trust

Count on GE Healthcare for equipment and support to help you reach new levels of GP excellence

Dependable service and support for peace of mind

GE Healthcare delivers flexible, multi-year coverage to ensure long life, high uptime, efficient patient throughput, strong return on investment.

- Expert service engineers always close by
- Simple maintenance, troubleshooting and repair
- InSite™ service technology for fast remote diagnostics and software fixes*
- Three-year warranty*

*Warranty and remote diagnostic offerings may vary by country or region. Please check with your local GE Healthcare representative.

Decades of GE Healthcare heritage at your service

Versana Balance links you to vast GE Healthcare ultrasound expertise. It's designed with you, your practice, and your patients in mind, to meet your clinical, workflow and connectivity needs.

Imaging quality based on world-class technology

Versana Balance helps you see clearly with reliable, long-lasting image quality that ranks with the best in its class. Images provide high spatial and contrast resolution, helping you visualize anatomical structures and physiological function.

Whizz one-touch dynamic image tuning constantly optimizes images as you scan, even as you move from one organ or region to another. You also get proven functionalities found on advanced GE Healthcare systems.

Sensitive B-Flow™ and B-Flow color imaging to analyze blood flow, vessel-wall irregularities and stenosis, and more.

CrossXBeam™ and SRI-HD to define structure borders clearly.

Sensitive color Doppler to examine thyroid vasculature and blood flow in vessels.

A complete solution

Solid capabilities, educational support, attractive financing

Competent system. Efficient and practical.

Versana Balance delivers diverse GP imaging for abdomen, cardiac, OB/GYN, vascular and small parts exams, giving you clinical confidence and your patients timely diagnoses and referrals. Intuitive design and automated tools simplify exams and streamline workflow.

Use the **Thyroid Productivity Tool** for structure characterization and TI-RADS assessment

Use **Scan Coach** 3D animation, anatomic illustrations and reference images to find the correct scan plane

Measure intima-media thickness with **Auto-IMT**

Use the **Follow-Up Tool** to easily compare current and prior images

Make **automatic** 2D measurements and volume calculations

Use **templates** to create custom reports to suit global or regional standards

Create custom exam protocols and standardized workflow with **Scan Assistant**

Easily add **voice comments** to exams

Use **Whizz** dynamic image tuning to scan while seamlessly optimizing image quality

Upload images and reports to the cloud for consultation or sharing with patients

Flexible financing to enhance return on investment

Financing plans including monthly payments help you meet financial goals and grow your practice.

CHECK OUT THESE CONVENIENT FEATURES
